## Space saving and light weight

The new design of MiNi-SMMS 7 has been optimized to reduce the height of the machine to only 890mm. This design gives the building a sleek look and well-organized exterior. The MiNi-SMMS 7 outdoor units are compact and have small physical footprints of only 0.29 sq.m. The highly space saving outdoor units are able to maximize utilization of installation space. It is an ideal air conditioning system for places with limited installation space.

## Design flexibility

MiNi-SMMS 7 provides high flexibility in design due to wide range of indoor unit choices. This helps in stylish and elegant interior designs.

Connectable up to 6 indoor units for excellent flexibility and well-designed room.

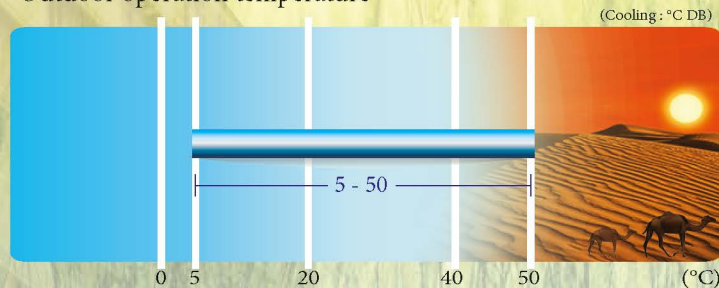

## Environmentally oriented

Toshiba MiNi-SMMS 7 uses refrigerant which is confirmed to be non-ozone depleting, non-flammable and non-toxic.

## Wider ambient operation

Outdoor operation temperature

Toshiba MiNi-SMMS 7 is designed to perform cooling operation up to 50°C, this guarantees high reliability of our product even at high ambient temperature.
